CEO MESSAGE

At THAHEEM GROUP OF COMPANIES, we believe that an ethical approach is the core value of our organization that goes right to the heart of everything we stand for. Ethical values are evident in every interaction with our employees, customers, suppliers and members of the public. Our business model is to integrate our core disciplines to deliver better project solutions across the chosen market areas.

We champion diverse talents, skills and backgrounds at THAHEEM GROUP OF COMPANIES. Working together, we make a positive difference and continue to make sure that every project is the envy of the Country. Whether it is the construction of a high rise building to multiple residential villas, Paper Mills, Pharmaceutical Industries, Shopping Malls and Mosques, Feed Mills, Poultry Industries, Textile and Power Sector Projects. THAHEEM GROUP OF COMPANIES uses the latest ideas, skills and equipment to deliver the best solutions possible.

We believe in building long lasting business relationships with our clients and the best services and delivering nothing but excellence. I am proud of the dedicated and ambitious team of professionals at THAHEEM GROUP OF COMPANIES and would like to thank our clients for putting their trust in us and would ensure them that we at THAHEEM GROUP OF COMPANIES, shall continue to 'outperform targets' and deliver par excellence quality and solutions.

Services

WE OFFER, WE PROMISE, WE DELIVER

The Company has handled and completed a large number of projects across the country under diverse geographical, geotechnical and seismic settings performing at par our established standards of excellence and meeting all project goals and time-lines with a huge amount of success.

A non-exhaustive list of our operations and scope of abilities is given hereunder:

- » Commercial
- » Office
- » Residential
- » Educational
- » Health
- » Institutional
- » Industrial
- » Agricultural
- » Feed Mill

Our experience enables us to handle a variety of structural systems and all types of construction with a high degree of customer satisfaction and professional expertise.

Expertise in the following areas has enriched our experience as regards operations:

- » Buildings
- » Sanitary Structures
- » Bins and Silos
- » Shell Structures
- » Machine Foundations
- » Special Structures
- » Infra Structure
- » General Civil Construction

We remain responsive to needs of each customer and can offer our services in many constructional frameworks. These include:

- » Construction only Projects
- » Design and build project

Price escalation often remains a key issue. Depending on the peculiarities of each situation, we have worked under different contract conditions which include the following:

- » Built-in escalation provisions
- » Key Materials supplied at fixed price
- » Escalation built-in within the prices

NEARLY THREE DECADES OF SUCCESS

Thaheem Construction Company Takes Pride in Nearly Three decades of successful services to the community.

Having taken a humble start in 1991, the company has by now grown into a sizable organisation with nationwide operations and a staff list running into hundreds.

We retained our clients while we continued to search for new ones.

Second generation of managers has joined us now, adding dynamism and initiative to stability.

As a corporate policy, we retain our competitive edge and flexibility as we grow assets that we greatly value. While we add computers and communication systems to our company, we make it a point to maintain the human touch. This provides us with the unique advantage of responding to each project in an open and dynamic manner.

As we grow, we build on what we can do as well as what we can not do, taking each situation as an opportunity to learn and improve.

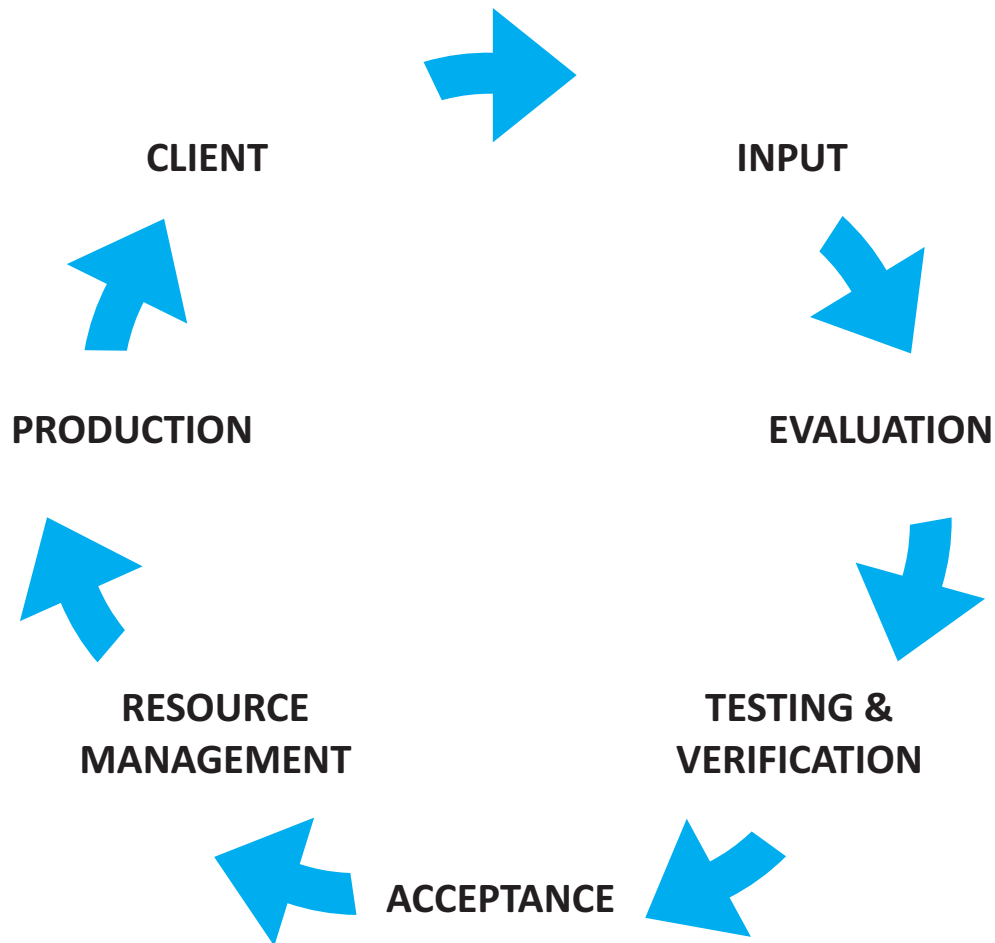

Decades down our learning curve, we are now in a position to simultaneously handle scores of projects, attending to each with ease and promptness. This has become possible through continuous effort on many fronts to observe, analyze, learn, institutionalise and consolidate.

We believe that the most vital part of our resources is our staff. For this reason, we do our utmost to retain the people who work with us.

Thaheem Construction Company is duly registered with Pakistan Engineering Council in **Category C-1/E, for 2020-2021.**

QUALITY MANAGEMENT

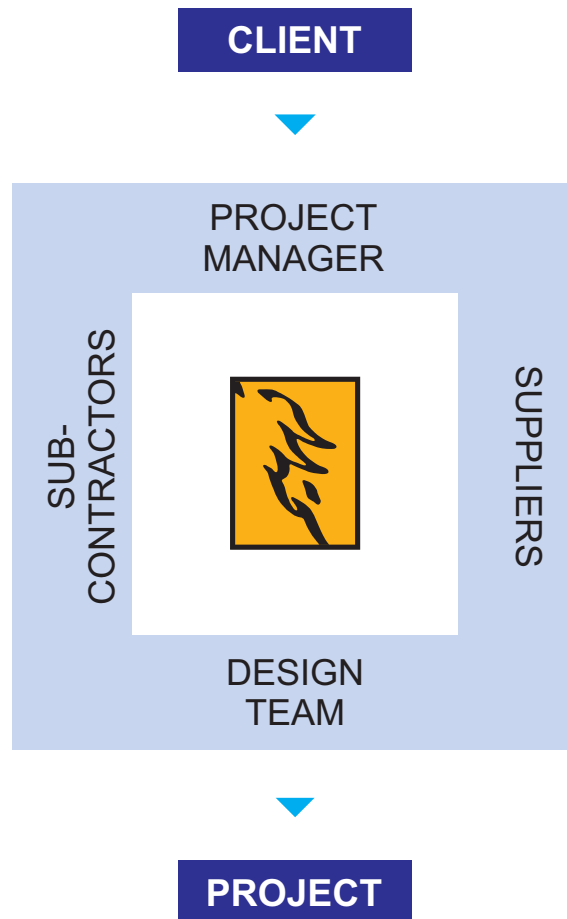

Quality management enjoys primary significance at Thaheem Group Ensuring compliance to designs and drawings, technical Specifications and good engineering practices are systematically ensured.

Testing, test evaluation, review of selected materials and processes used are regularly undertaken.

In-house facilities are maintained for certain testes, while for others, reliance is placed on independent third-pary laboratories.

DESIGN-AND-BUILD PROJECTS

On specific request, Thaheem Group also offers design-and-build services to the clients.

It has special standing arrangements with selected leading architectural and engineering Organizations, which team up with Thaheem Group on such projects.

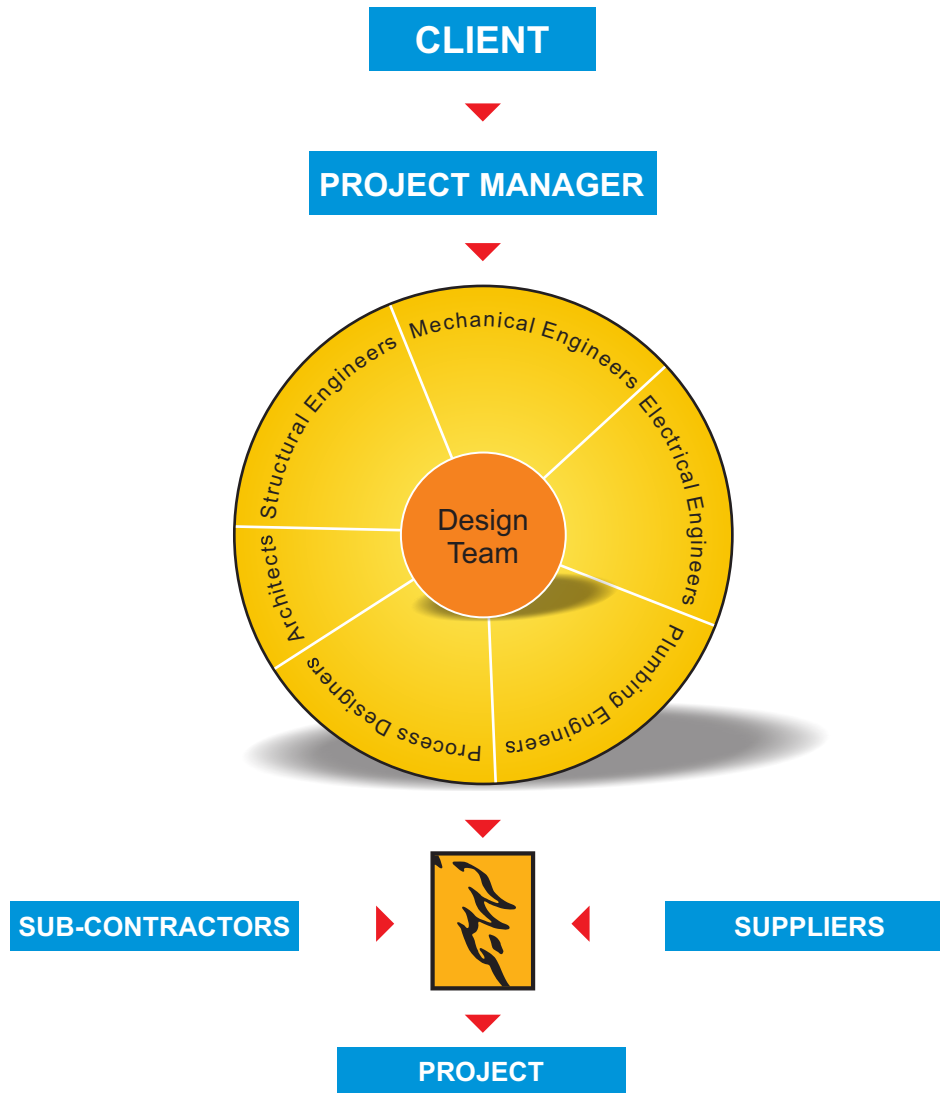

Designs and drawing are produced according to internationally acceptable standards. at the choice of the owner, such designs may also be reviewed by an independent/neutral Organization.

Design services are offered in the following disciplines:

- » Architecture
- » Geotechnical
- » Structural engineering
- » Plumbing
- » Electrical engineering

MECHANICS OF A TYPICAL CONTRACT

A typical contract involves many roles which include the following:

- » Owner
- » Project Manager
- » Design Team
- » Resident Supervision Team
- » Contractor

Sometime, one party plays more than one role. For instance, the project management may be handled by the owner himself. Similarly, the resident supervision may be assigned to the desined team, rather than in independent agency. The project Manager ensures vertical as well as horizontal co-ordination.

Thaheem Group can handle, with ease, a role where it is a team member and fully understands the intricacies of such a complex multi-party set-up. It often appoints a project manager, at its end, to ensure close co-ordination with all.

3

Health, Safety And Environmental Policy

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

GENERAL

Importance of the Health, Safety and Environmental (HSE) aspects and their proper management for a Company actively engaged in professional engineering and Construction business cannot be over-emphasized. TCC Construction management is aware of its corporate obligation to ensure that Health, Safety and Environment issues are duly addressed at its construction sites spread throughout the country.

The Contents of these documents are aimed at necessary compliance by all concerned in the family of TCC Construction workforce including the field staff, the middle management, the office and senior staff as well as the top management. The purpose of what follows is to explain the structure for effective management of Health, Safety and Environmental (HSE) issues at various construction sites warehouses, Stores and offices etc.

It is expected from all members of the TCC Construction team that they would ensure adequate achievements of the expectations and requirements expressed in this policy document.

TCC CONSTRUCTION'S HSE POLICY

TCC Construction is committed to ensure due protection of the public, the workers and all properties as well as the environment in which they live. The Company looks forward to see that all necessary measures are taken for running and completion of all operations without any injuries to the people or damages to the equipment or the environment.

It is inevitable that all concerned from the top management to the junior members of TCC Construction team feel responsible and accountable for HSE issues and all applicable laws and industry standards are adhered to in letter and spirit. It is also necessary that HSE aspects of the Company's equipment and services are regularly assessed and evaluated and the management practices in this respect keep on continuously improving.

We pray to Allah SWT that He enables us to integrate our HSE objectives into all our management systems so that we may achieve higher objectives by minimizing risks and enhancing benefits to our people, public and the environment.

Manzoor Ahmad Khan
Chief Executive Officer
TCC Construction

Our Mission

To construct a beautiful world accommodating the needs of a bright and

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

modern tomorrow and realizing the dreams of our customers.

Our Vision

We are the dream merchants of the modern business world catering to the requirements of the ever-changing global environment. We visualize a beautifully constructed world with an inspiration of close comfort for our customers as inhabitants of an interrelated and interwoven society with a special focus on innovation and utility. The world of tomorrow needs to be purpose built for the convenience and functionality of our customers..... and this is the inspiration behind all that is good at TCC Construction. The world of tomorrow is only promise. However, this promise has been substantiated in our operations as we ensure excellent purpose generated architectural designing, creative outlook long lasting masterpieces, durable functionality and of course, the comfort that one can only dream of.

HSE Management Policy Guidelines

TCC Construction aims at achieving improved safety performance resulting in elimination of injuries altogether. We believe that all accidents can be prevented if the relevant policies are duly followed.

With proper attention, participation, communication and training of all concerned, the desired safety levels can surely be achieved. It is also necessary to that Health, Safety and Environmental (HSE) aspects of the Company's equipment and services are duly evaluated on a regular basis. All relevant laws and regulations as well as industry standards must be followed in letter and spirit.

The Company's top management feels obligated to relate all HSE requirements and objectives with all levels of the TCC Company's professional management systems. We look forward to our still greater achievements by trying our utmost best to reduce any and all risks so as to provide unmatched quality professional engineering and construction services to our most respected and valued clients throughout Pakistan and abroad In sha' Allah.

Management System

Our management system is aimed at carrying out the Company's construction operations in a manner so as to provide maximum possible protection to the public, our people, and our properties as well the

environment in which we live.

The top management of TCC Construction has a firm resolve to define its HSE objectives, organize necessary inputs and resources, evaluate potential risks and plans to mitigate the same. Documentation and monitoring of the prescribed guidelines, following of the Standard Operating Procedures (SOPs) and regular auditing of the entire management system is the key to success of achievement of the desired HSE Management goals. The middle management must ensure that these expectations are properly conveyed to all the Company employees, Sub-Contractors, Suppliers and all other concerned entities. All the construction site supervisors should see to it that due conformance with the specified management system concerning HSE

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

aspects is diligently practiced and all concerned strive to improve the same on a continuous basis.

DESIRE PRACTICES

i) Resolve and Commitment

With the senior management's active involvement in the HSE affairs including availability of necessary resources, it will be ensured that all site supervisors consider HSE matters in the same way as they consider cost, quantity and quality of their production. They must encourage and celebrate their respective achievements and successes of the HSE aspects by employing the critical management tools including delegation of necessary authority, allocation of needed resources, checking of compliance and performances as well as effective communications with Employees, Suppliers, Clients, Sub-Contractors and all others concerned regarding these matters.

ii) Setting of HSE Objectives

Clear HSE aims and objectives must be defined and maintained at all construction sites of the Company. Also, each Site Manager should formulate HSE policies specific to his respective work site. Particular emphasis should be given to mitigation of any and all risks. All legal and regulatory requirements must be known and met diligently. Through regular verbal and written communications, awareness, practice, progress and performance monitoring has to be ensured at all organizational levels.

iii) Record Keeping

It is important to document assigned responsibilities and roles of individuals specifically appointed to implement the HSE policies and procedures. Proper instructions and professional training should be given to these focal persons. An effective system has to be developed at each constructions site to ensure proper documentation and record keeping on a regular basis.

iv) Mitigation of Potential Risks

Each Site Manager is responsible to develop Standard Operating Procedures (SOPs) to handle potential risks, hazards and emergencies. SOPs should be occasionally reviewed and revised/modified for continued relevance and

improvement. Although every effort is to be made to achieve zero accident/violation level, clearly defined recovery measures should also be developed to ensure well being of all the Company's workforce, Clients, Sub-Contractors, Suppliers, Customers and all others involved.

Due attention must also be given to specific/potential hazards and their expected outcomes as well as necessary precautionary measures.

v) Continued Planning for Improvement

Senior Management of Tcc Construction believes in continued business planning for all phases of its operations e.g. proposals, business development, contract management, procurement as well as construction operations etc. In our ever changing circumstances, identification and

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

evaluation of consequences to health, safety and the environment due to any changes in the staff, equipment or organizational structure of the Company will be duly conducted to ensure achievement of the desired HSE objectives at all organizational levels. Necessary milestones and time schedules as well as contingency plans for any emergencies should be developed specific to each construction site. These should also be reviewed and followed up to ensure the desired progress on a regular basis.

vi) Progress Monitoring of HSE Objectives

Success of the HSE plans, policies and procedures essentially depends on active employee participation at all organizational levels. Senior Management of the Company will provide the required resources as well as delegate due authority to its staff for proper implementation of these guidelines, SOPs and other site instructions given from time to time.

Suitable monitoring tools will be developed to gauge performance of staff and employees entrusted with the responsibilities to implement the Company's HSE policies.

Any non-compliance of policy guidelines will be determined and the required improvements will be identified at all organizational levels. Records of all HSE related events will be properly maintained in general and those pertaining to accidents in particular. Suitable individuals will be designated to carry out the desired tasks and they will be held responsible and accountable for conducting their tasks as per this policy and the prescribed performance standards.

Any accident at the construction site or office will be thoroughly investigated and analyzed to find out the required corrective measures so as to prevent similar occurrences in future.

vii) Performance Assessment and HSE Audits

The Tcc Construction's top management intends to carry out regular internal as well as external audits of its HSE plans and policies at all levels to ensure effective achievement of the desired results and due fulfillment of the policy objectives as per these specified parameters. The resultant audit reports shall be shared with the concerned quarters to ensure that the necessary corrective actions are taken. Periodic management reviews will also be conducted to focus on investigation of any accidents and regulatory violations etc. Policies, procedures and processes of risk management will be reexamined in view of the feedback obtained from the Company's Employees, Clients, Customers and Regulators etc. If deemed necessary, the top management of Tcc Construction will formulate a competent team for review, required modifications and updation of this document whenever warranted.

LETTER OF RECOMMENDATION

M/s Thaheem Construction Company was awarded constructor for our New Tissue Machine Building at value of Rs. 70 Million. The work consisted of Heavy concrete, Civil structure including Raft foundation, Basement & Heavy Machinery foundations. They also constructed the structure part of Warehouse, over all they performed very well in the time lines and quality of work parameters.

We have found them professionally and resources wise a strong Construction Company. This has speed and Economic viability when it comes to rates.

We wish them all the best in their future endeavors.

Letter of Recommendation

It is a pleasure to state on record that we assigned the Engineering Construction Company, Thaheem Construction Company for our Schazoo Zaka (Pvt.) Ltd., 20 Km, Jaranawala Road, Kalalwala, Lahore, the task of constructing a Pharmaceutical Manufacturing Facility with a covered area of more than 100,000 sq ft.

The work included special terrazzo flooring with coving, pharma windows, other structures required for Pharmaceutical plants. Thaheem Construction Company fulfilled all requirements observing the code specifications and commendably meeting the demands of honesty and sincerity in skill and material.

Their working team on the site of supervising engineers, checkers, and masons were fully reliable one with due experience and competence. They have successfully and commendably completing the construction project and we are grateful to them for their unlimited co-operation and support in finishing the project as per requirement. We wish them success in the future.

To Whom It May Concern:

It is a pleasure to place on record that we assigned the Engineering Construction Company, Thaheem (pvt) Ltd., in our Majlis Complex, Marghzar Colony, Multan Road, Lahore, the task of constructing a Jamia Mosque with a 100-feet high Minaret and a part of our Jami atul Banat Madrasah

Their keen concern, untiring day and night efforts, fully observing the code specifications, and commendably meeting the demands of honesty and sincerity in skill and material, we noticed highly impressed and deeply moved all along the progress of the work.

Their working team on the site of supervising engineers checkers, and masons was a fully reliable one with due experience and competence.

They parted us after successfully and commendably completing the construction project in the agreed time living behind a good memory, deep appreciation and admiration. Highly may they be blessed.

CERTIFICATE

We feel pleasure to certify that Thaheem Construction Company has successfully completed the construction of our poultry farms. The construction comprises frame structure RCC sheds. The main sheds are reinforced concrete, double-storeyed frames, with burnt clay brick cavity wall cladding.

We have found the work of the company to our entire satisfaction and have no hesitation in recommending it for other projects. The construction quality and speed of the work have been found satisfactory.

We wish all the best to the company in their future projects.

TO WHOM IT MAY CONCERN

We, M/S Sadiq Poultry (Pvt) Limited, a leading poultry breeding company of Pakistan, is associated in business deals with **M/S Thaheem Construction Company (TCC)** for more than two decades. During this era we awarded many civil construction contracts to TCC including poultry Breeder Farms, Boiler Farms, Layer Farms, Hatcheries etc.. We found them fully equipped with state of the art construction machineries, dedicated staff and professionally sound management.

We especially appreciate their dedication and spirit towards timely completion of our projects with quality. We wish them all the best and also looking for their bright future.

Thanking you,
Best Regards
